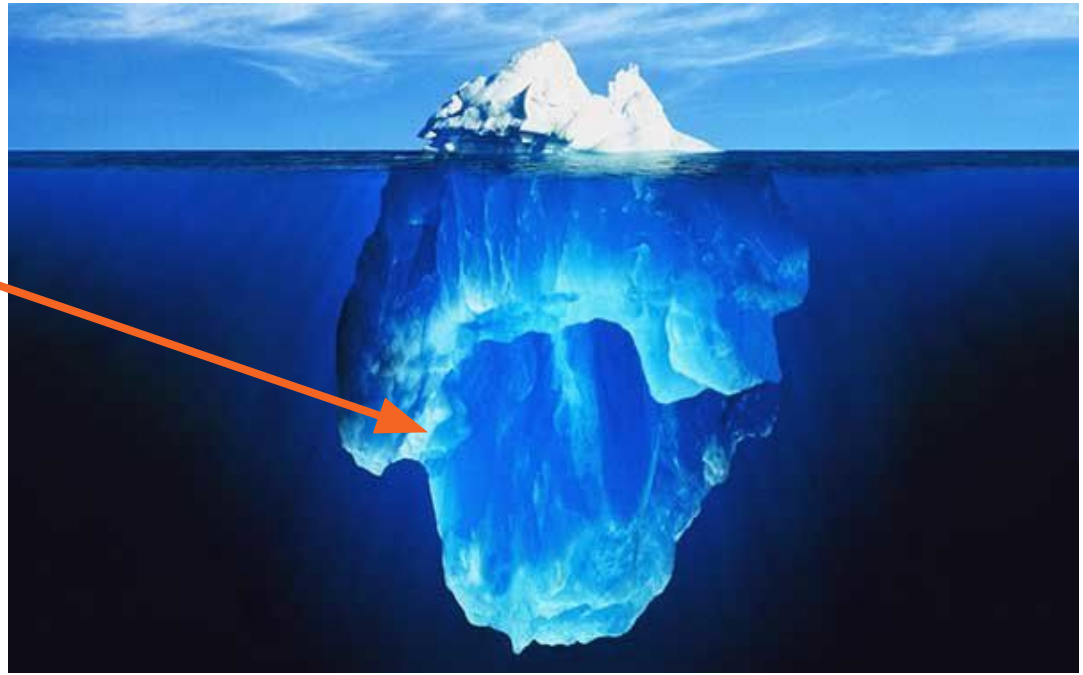
Didn't do any of this but learned something groundbreaking

Cohorts are filling this in



Let's start hearing from some cohorts!

5 minute report out from a participant in each cohort. They'll answer these questions:

- What has progress looked like for you in your cohort? What are some ways you've made progress toward your goal?
- What's something you learned from another team during your time in this cohort?
- What changed for you during this action cycle?
